

File 6-2004

UFO above the crop circle Dolphin Golden Ball Hill

10 August 2004 at 12:46

Golden Ball Hill – Wiltshire – United Kingdom

Here is a rare photo, as it shows itself, the connection between the UFO phenomenon and crop circles

We distinguish perfectly shaped UFO silver disc with a dome in the center of a dark color.

Also note the presence of an extremely powerful light located on the ground, just on the edge of the plot of the field :

This is a very important detail, because this light is visible on many of my photos :

Here is the link to the video where we see the light at the end of the field : http://youtu.be/0T9CW_Ce6WQ

After the overview of the UFO above the crop circle, I shot 8 minutes later, at 12:54, a beam of light projected on the floor, moving shaving landscape, crossing the road, and continue its leadership to Tan Hill. For me it is a ray of light projected by the UFO from the sky.

Here is the link to watch the video : <http://youtu.be/hA4YpxJd3jk>

After everything is back to normal, the light at the end of the field disappeared :
